Profile

Front-End Developer passionate about building interactive, performant, and visually engaging web applications. I specialize in creating modern, responsive user interfaces with React, Next.js, and TypeScript — combining clean design, accessibility, and SEO optimization. Driven by curiosity and precision, I enjoy transforming complex ideas into seamless digital experiences.

Experience

Nommo

Front-End Developer, Marrakech, Morocco

2024 – Present

- Built and optimized the **social media section** of the Nommo platform ; featuring posts, comments, replies, likes, and real-time interactions using Next.js, Redux, and Socket.IO.
- Designed a fully responsive website architecture, ensuring smooth and consistent layouts across all screen sizes including mobile and ultra-wide displays.
- Enhanced performance and accessibility scores through best practices in code splitting, lazy loading, and image optimization.
- Implemented strong SEO foundations using server-side rendering (Next.js), meta tags management, and semantic HTML.
- Integrated interactive charts and analytics dashboards using Recharts and ApexCharts.
- Collaborated with the design team to refine UI/UX elements using Tailwind CSS and Shadcn UI components.
- Focused on maintainable architecture and clean TypeScript-based code for long-term scalability.
